

Get mental health support when and where you need it

MOST is a free digital mental health service for young people aged 12 – 25

MOST gives you

Online support with real people

Tailored therapy journeys

A social network with a difference

A personalised library of tools

MOST has small bites of therapeutic content served up as cartoons, activities and practical strategies that work – all available online, when and where they're needed.

There are journeys to help you improve your mood, improve your sleep, find your confidence, find your calm, explore social hacks and sort out all things work and study.

If you need it, connect with peer support on MOST's online community. It's a safe social network of young people who get it, and peers who've been through it. On MOST you can feel safe to react, contribute and post about your world (only if you want to).

40% of young people experience mental ill-health every year

How MOST works

MOST provides on-demand support to young people experiencing mental ill-health.

It connects you to a blend of online tools and real support from real people.

Get tips and strategies that work – in a personal program to work through in your own time – plus access to clinical and career experts and a peer support team with their own lived experiences.

→ MOST gives you online tools and support to get back on track with the things that matter – like friends, mental health, work and study.

↳ Get access to online mental health support – and real people – to help you through life's **challenging moments**, right when you need it.

With MOST, we've made getting support on your terms easier.

MOST is designed to give you help before, during, in-between and after face-to-face sessions.

You need a clinician to get you connected, but then MOST's available whether or not you stay with the service for your care.

Our team is ready to support you by...

- making sense of what's going on for you
- guiding you along your online therapy journey
- personalising content to your needs
- working alongside your offline clinician
- helping you recognise your skills and strengths
- linking you with a peer worker to chat with someone who gets it
- helping you navigate work, study and career

Get connected to MOST

MOST digital therapy offers two services - one for young people aged 12 to 14 and one for those aged 15 to 25.

Ask about MOST at your participating youth mental health service and get connected today.
